Dear Sir,

I wish to refer to request from Mr. Eric Usher, Head Renewable Energy and Finance Unit of endorsement by telefax transmission, ref. no. 642/EU/ds dated January 27, 2005 regarding the above-cited project to secure GEF funding.

Investment strategy of the proposed project will be achieved through direct investments in equity related instruments in one of the following key investment areas, such as renewable energy, combined heat and power, agro-industry based fuel substitution and energy service companies (ESCOs). It will be targeted for arising carbon credit trading, energy sector restructuring, efficiency improvements in energy production, distribution and utilization, and governmental programs promoting clean energy. The project proposal is in line to the Environmental National Program in Indonesia and has a good chance to develop an alternative energy partnerships development in Asia.

Therefore, as the GEF Operational Focal Point for Indonesia, I hereby fully endorsed this medium-sized project proposal.

Thank you for your kind assistance and continuous cooperation.

Yours sincerely,

Effendy A. Sumardja
GEF Operational Focal Point
for Indonesia

MR. AHMED DJOGLAF
 Assistant Executive Director
 GEF Coordination Division
 United Nations Environment Programme
 Nairobi, Kenya

Dear Mr. Djoghlaf:

This pertains to the proposed UNEP/GEF project "Renewable Energy Enterprise Development - Seed Capital Access Facility" which we received only recently.

We acknowledge the relevance of the proposed project in boosting the present condition of our energy investment portfolios. We also note the importance of a seed capital which the project will provide and likewise make available to the local energy enterprises, as an early stage risk capital that they could use to plan and initiate new sustainable energy projects, products and services. As such, we are favorably endorsing the proposed project and we trust that the Philippines will still be given the opportunity to participate in its implementation.

We look forward to your consideration.

Very truly yours,

Analiza Teh

Dear Mr. Eric USHER,

Re: "Endorsement Letter for a GEF proposal on Renewable Energy Enterprise Development - Seed Capital Access Facility"

As the GEF Focal Point for the Royal Government of Cambodia, I do hereby declare my full support for a GEF proposal on Renewable Energy Enterprise Development - Seed Capital Access Facility that aims to increase in a number of countries the flow of seed capital to sustainable energy enterprises and build experience and commitment amongst energy investors for engaging capital in early stage developmental investing.

In providing this endorsement, we hope that Cambodia is going to be included in the project implementation so that Cambodia could access to the seed capital and have opportunities to somehow build up its experience and commitment in renewable energy development, in particular sustainable growth in rural electrification systems across the country.

Please accept the assurance of my highest consideration.

Yours sincerely,

Khieu Muth

**ENDORSEMENT FOR THE PROJECT TITLED RENEWABLE
ENERGY ENTERPRISE DEVELOPMENT**

We are in receipt of the project brief entitled "Renewable Energy Enterprise Development."

We have reviewed the brief and find its objective, namely, seeding new sustainable energy enterprises with an approach that combines enterprise development support with seed financing, of importance to assist Zambia achieve sustainable development whilst contributing to the objectives of the United Nations Framework Convention on Climate Change.

In my capacity as the GEF Operational Focal Point for Zambia, I hereby endorse the request as submitted.

Thank you and look forward to hearing from you about the realisation of this project.

RE: AREED EXPANSION PROGRAM

We acknowledge receipt of your telefax message of 22nd May 2002 with respect to the above-mentioned subject.

We are glad to be informed of AREED Expansion programme in Tanzania and the promising achievements made in phase one.

While we encourage and appreciate these achievements, we are also in full support of the expansion programme. It is our understanding that the loans that will be provided to the entrepreneurs at later stages will not entail any government commitment and involvement in terms of the contract entered between the two private entities including the repayment agreements.

As far as this programme is concerned, we have no objection for the proposed expansion and Tanzania's participation through TaTEDO.

It is our expectation that through AREED, TaTEDO will be able to undertake the proposed project activities which aim at addressing the key challenges facing Tanzania today namely: poverty reduction, economic growth, food security and environmental degradation. These activities are indeed in line with our national priorities.

We thank you for your continued cooperation.

Yours sincerely,

R.S. Mnyungu
